LEAP Launches Inaugural Summer Research Experience for Undergraduates (REU) Program

February 17, 2022

The Center for Learning the Earth with Artificial Intelligence and Physics (LEAP) announced a call for applications today for the inaugural Research Experiences for Undergraduates (REU) Program this summer at Columbia University.

The LEAP Summer REU Program will host undergraduate researchers and provide experiences on synergistic innovations in data science and climate science. The program also consists of enrichment learning and networking opportunities, including seminars and workshops, and is in partnership with the Summer at SEAS program, the DSI Scholars program and the Significant Opportunities in Atmospheric Research and Science (SOARS) program at UCAR. An information session will be held on February 24 and the application deadline is March 3. The eight-week program will begin June 6 and conclude on July 29, 2022.

For more information, please contact leap@columbia.edu or visit the LEAP Summer REU Program webpage.
