

LEAP

LEAP Partners with National Center for Atmospheric Research (NACR) for Trustworthy Artificial Intelligence for Environmental Science (TAI4ES) Summer School

March 17, 2022

The Center for Learning the Earth with Artificial Intelligence and Physics (LEAP) announced today that it will partner with the National Center for Atmospheric Research (NACR), one of LEAP's critical partner institutions, for this summer's Trustworthy Artificial Intelligence for Environmental Science (TAI4ES) Summer School.

The TAI4ES Summer School will include lectures from leading researchers in the field, with a focus on how to develop trustworthy AI for the earth and environmental sciences. The experience will feature a machine learning trust-a-thon, where students will gain hands-on experience with evaluating the trustworthiness of AI to solve real-world environmental science challenges. The five-day program will begin June 27 and conclude on July 1, 2022.
